Vulcan United Church Celebrates Anniversary

First Services Held in Vulcan on Second Sunday in June 1910: Five Ordained Ministers in Pastorates Since That Time

On the second Sunday of June 1910 a small group of people of the then newly established Vulcan community met in the school room, which is now part of the high school building, and organized the first service of public worship in Vulcan. This Sunday next, June 14th, the Vulcan United church celebrates its 26th anniversary. At the time of organizing the first public worship there were three ministers in the immediate district, Mr. Fletcher of the Presbyterian church, Mr. McKenzie of the Methodist church and Mr. Melrose of the Anglican church.

At that time it was arranged that the various ministers would conduct the services in turn, each taking a third Sunday, and there was no denominational distinction. Thus did the first spirit of co-operation, possessed by the pioneers, express itself in church affairs of the community.

Soon the arrangement between the Methodist and Presbyterian churches, to divide the country west of the Great Lakes into zones for missionary purposes, came into effect. To prevent overlapping and waste of manpower, it was decided that all new fields in one zone would be Methodist and all new fields in the next zone would be Presbyterian. The Vulcan district was in a Presbyterian zone. The Methodist missionary was withdrawn and at the same time the Anglican church decided to withdraw temporarily till its congregation numbers were greater. So it came about that the first ordained minister in Vulcan was Rev. Allan of the Presbyterian church and that the Vulcan congregation was for some time a community group under Presbyterian government.

In the course of the years that followed the Anglican, Roman Catholic and Church of Christ congregations were established to meet the needs of the growing community, all groups working side by side in Christian fellowship.

Rev. Allan was succeeded in the ministry by Rev. A. R. Schraff, who was followed by Rev. A. S. Hayes. In 1921 Rev. J. N. Brunton became minister of the Vulcan church and following a pastorate of many years was succeeded by the present minister, Rev. P. G. McPherson, in 1935.

The members of the first session of the congregation were Messrs. J. A. Lindsay, F. A. Elves, Geo. Robson, E. M. Clark and Dr. Upton. Mrs. D. K. Allan was first president of the Ladies' Aid and among the first members were Mrs. Schenck, Mrs. Gardiner, Mrs. Reeves, Mrs. Robson and Mrs. Lee.

Today the congregation possesses a fine church building with commodious Sunday school room. They can look back with gratitude to all those who laid the foundations of a Christian community in Vulcan and look about with pleasure upon those who maintain their traditions, both in their own congregation and in sister congregations of the community. Members of the congregation should think at this anniversary season, especially of those who serve faithfully as officers in the church and Sunday school and leaders of youth movements sponsored by the church and those who give of their talents so generously in the conduct of the service of praise every Sunday, morning and evening.

Special Anniversary Services
On Sunday, June 14th, special anniversary services will be conducted with Dr. Thomas Powell, president of the Alberta Conference, as guest preacher. Suitable music will be provided by the junior choir under leadership of Mrs. W. Campbell in the morning and by the senior choir, led by R. H. Weale in the evening. A cordial invitation is extended to the people of Vulcan and vicinity to worship with the congregation and pledge themselves anew to carry on what the pioneers began.

The Vulcan Cub Pack, under direction of Cubmaster Doney, are planning a picnic outing this coming Saturday, June 13th. The Pack will probably journey to the woodlands west of High River for the outing.

Vulcan Visitor

R. D. Purdy

General manager of the Alberta Wheat Pool, who was a Vulcan visitor on Tuesday afternoon gaining personal contact with agents of Pool elevators on the Aldersyde-Kipp railway branch. He was accompanied by T. E. Oliver, assistant manager; J. J. Strang, Pool director, and J. R. Russell, district superintendent. Eleven agents met Mr. Purdy at Vulcan.

Pool Elevator Agents Confer With Manager

Meeting of Alberta Wheat Pool Elevator Agents on Aldersyde-Kipp Railway Branch Attend Meeting at Vulcan.

R. D. Purdy, general manager of the Alberta Wheat Pool, in company with T. E. Oliver, assistant manager; J. R. Russell, district superintendent; and J. J. Strang, Alberta Wheat Pool director, attended a meeting of the agents of the Pool elevators on the Aldersyde-Kipp railway branch on the afternoon of Tuesday, June 9. The meeting was one of many held throughout the province this season, giving the management of the organization an opportunity to meet and confer with all country agents at main points on various branch railway lines.

The Vulcan meeting was held in the office of No. 1 Pool elevator, followed by a dinner served in the Imperial hotel dining room. Agents in attendance included Mr. Kaebary, Mazzeppa; Allan Murray, Blackie; Mr. McCready; Herrington; Mr. McLean, Brant; Mr. Erickhart, Ensign; Messrs. Sloan and Lee, Vulcan; Wm. Lawrie, Kirkcaldy; E. Watts, Champion; Mr. Hubka, Carmangay; Mr. Burquist, Peacock Sidling.

General Manager Purdy's address to the agents was made in an effort to gain the agent's viewpoint during the question period that followed. He gave an outline of head office work, stressing agents' co-operation with the farmers of the organization who used the facilities of the Pool. He indicated what was expected of every agent, dealing from the manager's point of view. J. J. Strang, Pool director from Claresholm, addressed the meeting on agents' work from the directors' point of view.

The meeting was of informal nature, giving the agents opportunities to ask questions in dealing with the farmers. Mr. Oliver also addressed the meeting, enlarging on points stressed by Mr. Purdy.

That Mr. Purdy is held in high esteem by his agents that attended the Vulcan meeting was made known by the many comments heard from the agents after adjournment. "His human manner of dealing with employees wins him a place in hearts," said one agent following the meeting.

A provincial convention of the Churches of Christ of Alberta, will be held in Vulcan from July 23rd to 26th. The Church of Christ Young People's camp will be held in High River, beginning July 27th.

VULCAN HAPPENINGS

Miss V. Mayor of the Canadian Bank of Commerce staff, Vulcan, is holidaying in Edmonton.

Mrs. (Rev.) P. G. McPherson left recently for Lindsay, Ont., where she was called on word of the serious illness of her father.

Mr. and Mrs. J. D. Dobbs left Wednesday morning for an extended tour in the United States. They expect to return to Vulcan at the end of June.

Mrs. T. Black and Miss Edith Black of Chesterville, Ont., are visiting in Vulcan at the home of Mr. and Mrs. Thos. Black. They expect to visit here about six weeks.

Mrs. Ernest Crandall of Petiteodine, N.B., and Miss Ella Lockhart of Sussex, N.B., were week end visitors in Vulcan at the home of their brother, B. D. Lockhart and Mrs. Lockhart. They were accompanied by W. L. Lockhart and wife of Calgary.

Miss Lillian McKinley underwent an operation for appendicitis at the Vulcan Municipal hospital on Thursday last week. Friends will be pleased to learn that she is recovering nicely. Her father, the well known "Tony" McKinley, was a visitor in Vulcan for several days last week.

Jubilee celebrations for St. Augustine's church, Lethbridge, were celebrated during the week end of May 31st. The pulpit was occupied by the Bishop and Archdeacon Tims during the Sunday, the festival being continued on Monday with supper and reminiscences by Mrs. C. McKillop and N. T. McLeod. Rev. T. B. Winter of Vulcan attended.

Heavy rainfall on Saturday meant finis as far as the inter-school track meet was concerned. This event slated for Vulcan on Saturday was cancelled and will not be held until some time in September. With examinations starting, the executive decided against holding the meet before the end of the present term. In September the program of events will be carried out as planned with cups and ribbons as prizes.

For the past several weeks a crew of workmen of the C.P.R. have made headquarters in Vulcan. Chief work of the crew is the welding of worn rails at the point of joining. Welding machines are carried and the rail is built up and ground to level with special equipment. The work is slow and an extra crew has been placed on the job during the past week. With two eight hour shifts, the men work from 4 a.m. to 9 p.m. Two electric welders are used.

Harmony M.D. Consider Proposed Hospital Scheme

J. D. Hagerman Declared Elected by Acclamation in Division Number 3, Replacing Mr. Smith Who Resigned

The regular monthly meeting of the Council of the Municipal District of Harmony 128, was held in the municipal office at Champion, on June 4th. All members of the Council were present, and Reeve Griffin presided.

Councillor Hagerman took his declaration of office, which entitled him to sit on the council, as councillor for Division No. 3, Councillor Smith having resigned.

Councillor Hopkins moved that clause re 1936 allocations be rescinded. Carried.

The minutes of the previous meeting were read, and on motion of Councillor Hopkins, same were adopted as amended. Carried.

The minutes of a special meeting, which was held on May 18th were read, and on motion of Councillor Ellis, same were adopted. Carried.

Secretary read declaration from the returning officer, J. W. Cain declaring J. D. Hagerman elected by acclamation, as Councillor for Division No. 3.

Secretary read communication from the General Hospital, Calgary, re account of Mrs. Sansome. Councillor Ellis moved that this account be tabled for another month. Carried.

Councillor Hopkins moved that account for H. C. Crane for labor on general machinery be tabled. Carried.

Councillor Ellis moved that account from the Champion hospital re Mrs.

Rev. V. E. Smith of Lethbridge, former pastor of St. Aldhelm's church, was a Vulcan visitor on Friday.

Mr. and Mrs. Creston Harris of Winnipeg are district visitors at the home of Mr. and Mrs. A. J. Kennedy. The latter is Mrs. Kennedy's sister.

The St. Aldhelm's Ladies' Guild will hold a strawberry tea in the church hall on Saturday, June 20th, from 3 until 5.30 o'clock in the afternoon.

Evangelist James Earl Ladd, well known to the congregation of the Vulcan Church of Christ by a former visit, will conduct revival meetings at the local church commencing Sunday, June 28th.

According to information given The Advocate by Rev. T. B. Winter, the Church of England congregation at Champion has been a favorable answer to the question of organization and has asked their Bishop to set aside the district under the title of the parish of Holy Trinity church, Champion.

RAIN—NO GAMES

Rain during the week end cancelled several district events, among the number being two scheduled baseball games in the Foothills League setup. Vulcan was booked to play at Claresholm Monday evening and Staveley was billed to play on the local diamond on Friday evening last, but both contests were cancelled until future dates to be arranged.

Yesterday the Vulcan baseball artists played at Staveley. On Friday evening at 6.15 o'clock the Nanton team will invade Vulcan grounds to seek a victory.

SCOUTS AND CUBS PLAN FOR ANNUAL JAMBOREE

Plans and arrangements are nearing completion for the district annual jamboree at the Vulcan sport park during Saturday, June 27th. Scouts and Cubs are expected to attend from Champion, Black Diamond, Turner Valley, Okotoks, High River, Blackie, Bryant-Ensign and Vulcan, all points being in the Foothills Scout District. Thomas Belfon, Foothills District Commissioner, and Ralph Johnson, Assistant executive secretary, and other officials will be in attendance.

It will be a great day for district scouting. Tests on Scout and Cub work will be given, competitive games will be staged and lunch will be served, all in the one day.

Adam Schmidt be tabled for thirty days. Carried.

Councillor Hagerman moved that the Municipality pay to the Public Petroleum Company, balance of account as agreed to, namely \$1.00. Carried.

Councillor Somerville moved that we issue a sum not to exceed \$25.00 to the secretary, to take care of express shipments as a petty account. Carried.

The council were next interviewed by a delegation, representing the Champion Booster Club, in respect to the proposed hospital scheme. This was discussed for a considerable time, and the council asked the secretary to invite this delegation down to the next meeting when they hope to have representation from the Vulcan and Carmangay areas, when all the propositions can be discussed again.

A discussion arose in respect to the 1936 allocations for public works, and on motion of Councillor Hopkins, the following amounts were adopted: Div. 1, \$982.40; Div. 2, \$928.98; Div. 3, \$1,018.28; Div. 4, \$907.96; Div. 5, \$958.98; Div. 6, \$720.25; general machinery \$500.00. Total \$5,726.85. Carried.

Councillor Somerville moved that the council purchase a cheque protector for the office. Carried.

Councillor Ellis moved that the council send letters to the representatives of Vulcan and Carmangay districts and ask them to attend the next meeting, so that a thorough discussion can be had in respect to a hospital area. Carried.

Sunshine Route Would Make Best Surfaced Road

Vulcan Ball Players Drop First Contest

Errors in Seventh Inning Prove Costly when Champion Defeat Local Team 8-0. Otherwise Excellent Game Marred by Erratic Playing

Dropping the first game yet this season, the Vulcan baseball club was defeated by the Champion diamond artists at the south town on Wednesday, June 3rd. It was shut-out game. The score at the end of the ninth was 8-0. Fans in attendance at the contest claim it was excellent baseball, marred only by infield errors in the seventh inning when Champion scored six of their eight counters. The game was a regular scheduled Foothills League contest.

Young Robinson, a new imported hurler at Champion, showed much ability in the box when he held the Vulcans to three scattered hits. He struck-out thirteen men. Dee Snow, pitcher for the locals, gave a good exhibition of hurling. He struck-out ten Champion players at bat. Recor completed the battery for Vulcan and Hargreaves for Champion. Both teams had regular line-ups.

The first five frames of the games were scoreless. Champion scored one in the sixth, six in the seventh and one in the eighth. None of the runs were earned, all scored on errors made by Vulcan players. All were infield errors.

Champion 000 001 610—8
Vulcan 000 000 000—0

I.O.D.E. PRESENT LEGION PAINTINGS

"Presented by the Imperial Order of the Daughters of the Empire in memory of the men and women of the Empire who gave their lives in the Great War, 1914-18" is the inscription on six beautiful framed pictures now hanging in the club rooms of the Vulcan branch of the Canadian Legion. The pictures, hanging in the canteen, present a cheerful atmosphere, coupled with recent decorations to the room. Six in number, depicting scenes of the Great War, they have been neatly arranged. Two of the number are painted by A. Bastien, entitled Canadian Cavalry and Tanks and Over the Top. The group includes Cloth Hall at Ypres, by J. Kerr Lawson, The Night Patrol by Julius Olson, Canadian Arriving on the Rhine by Sheldon Williams and Canadian Artillery in Action by Kenneth Forbes.

Decorators have recently completed the painting of the interior lower floor sections of the Legion hall. Walls, ceiling and all wood work have been repainted. Work on the upper section of the building is under way. Other recent improvements to the building include the re-covering of the roof of the assembly hall with shingles rather than the patented board covering.

MOFFAT-SCOTT NUPTIALS MAKE VULCAN RESIDENCE

At three o'clock on the afternoon of Friday, June 5th, in the Claresholm United church, a wedding of much interest to Vulcan and district was solemnized, when Helen, only daughter of Mr. and Mrs. S. R. Scott of Claresholm, was united in marriage to Mr. Ross Moffatt of Didsbury. Rev. R. W. Dalglish officiated at the ceremony. Miss Arlene Reineck of Claresholm was bridesmaid. Walter Scott, brother of the bride supported the bridegroom. Mrs. Clara Ringrose played the wedding march at the organ.

Following the ceremony the wedding party were entertained at a buffet luncheon at the home of the bride's parents. The wedded couple left by motor for Spokane and Southern States via the coastal route. Mr. and Mrs. Moffatt will reside in Vulcan upon their return.

Vulcan Board of Trade and Representatives from Every Point on Highway Petition Premier and Minister of Public Works

Backed by a strong representation from every point on the Sunshine Trail from Lethbridge to Strathmore, the Vulcan Board of Trade has prepared and forwarded to Premier Albert and Hon. W. A. Fallow, Minister of Public Works, a petition urging the hard surfacing of the highway from the United States-Alberta boundary at Coutts north to the Trans-Canada highway at Strathmore via Lethbridge, Vulcan and Carleton Place, a presenting the petition for the selection of the Sunshine route for hard-surfacing, many arguments were set forth.

Among the arguments set forth were the following:

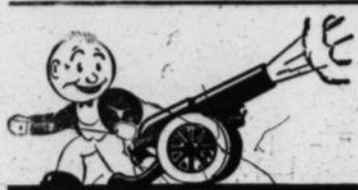

1. Existing records show that a large percentage of the traffic from United States points has come into the province over the route from Coutts northward.
2. This route, known as the Sunshine Trail, has been advertised throughout the United States for many years, giving much publicity to the tourist traffic that enters the province.
3. Such a route from Coutts northward would serve the main centres of the southern province, Lethbridge to Calgary.
4. Physical conditions of the Sunshine Trail, such as soil, drainage, etc. are far superior for the construction and maintenance of a surfaced highway than any other route in Southern Alberta.
5. The Sunshine route is the only commercial route entering the province from the United States and passing, as it does, through the Montana and Southern Alberta oldfields and through the largest wheat producing belt in the province, would provide a valuable all-year commercial route as well as a tourist entrance.
6. The Sunshine route is the most direct connection from the Montana highway-system to the Trans-Canada highway through Alberta.
7. This route from Coutts through Lethbridge and northward affords an excellent connection with Highway No. 1 and the Foothills and Turner Valley oilfield through High River.
8. The preamble to the petition directs attention to the meeting recently held at Vulcan at which representatives from every point on the route attended, pointing out the resolution passed at the meeting. A copy of the petition was also mailed to the Dominion government, who are directing the construction of the dust-proof highway for international traffic.

Rainfall Benefits Crops Greatly Vulcan District

Rains that started falling throughout the Vulcan district late last Friday afternoon and continued until Tuesday morning greatly benefited the crops in the Vulcan district. The showers were light and penetrating soaking well down to the sub-soils for ample reserve moisture. Following a week of very warm weather the moisture was much needed. In Vulcan 1.71 in. was registered at the Searle Grain Company gauge. On Tuesday, this recording brought the total rainfall for the season that started April 1st to 1.71 inches. About mid-afternoon, Tuesday, following a warm morning, rain and light hail fell in various sections of the district. The hail did little if any damage. The moisture that fell during that short period boosted the total by .04 in. to bring the total to date as 4.75 ins.

This amount is above the 10-year average as shown by the Searle rainfall indicator now posted in The Advocate window. The ten year average by June 8th every season is shown as 4.55 inches. On Monday the district had received .16 in. of rain over the average.

Rains were heavier to the south. Champion district reported nearly two inches of rain, while Carmangay and Barons reported still heavier amounts.

Don't wait for the EXPLOSION!

OTTAWA DEBATES

"The debates in the House of Commons during the current session seem to be on a less partisan, and therefore more constructive plane than in some previous sessions."

Choosing almost at random, one might select a discussion on mining and agriculture to which Hon. T. A. Crerar, Minister of Mines, and Hon. R. B. Bennett, contributed.

The debate, covering quite a range, opened with a consideration of duplication of research services in laboratories. Attention was called by Mr. Bennett to the laboratories of the department of mines and those of the research council, questioning further, to what extent the dominion should engage in research work, in an industry over which provinces have complete control in royalties and in the manner in which the industries are carried on.

Mr. Crerar agreed that any duplication, involving expenditure of public money is inadvisable, but pointed out that the laboratories of the department of mines had been established before the research council, and before the provinces had their departments of mines.

He impressed the value of the mining industry to Canada, stating that wealth from this source had increased from \$25,000,000 in 1901 to \$222,000,000 in 1935. Economic conditions, said Mr. Bennett, had raised gold from \$20 to \$35 an ounce and quite a furor had been raised when a portion of the increment was turned to the national treasury. Yet the dominion, not the provinces, through research laboratories, had increased the uses of low grade ore and otherwise brought profit to the industry. With the provincial control of resources, it is imperative that the continuing research by the dominion, for which such small return is made to the dominion, should not be unduly expensive, nor open to the charge of duplication. To this Mr. Crerar agreed.

The debate then swung to the value of the mining industry, and of agriculture, in which Mr. Bennett emphasized that a proper balance must be maintained. It is undeniable, he said, that gold or other mineral taken from the ground is gone forever, whereas the wealth of the soil is replenished each year by labor. For that reason, he regarded agriculture as basic. "Never," he said "have so few people produced so much new wealth in a given time as has been produced in the last thirty years between the lakes and the mountains."

In stressing support for agriculture, Mr. Bennett presented a picture of the leading industry of Canada, with which Mr. Crerar, nor others, could quarrel. Granting that these industries both must have encouragement, there should be duplication of service in neither.

NO GREAT INTEREST

A long standing matter of dissatisfaction amongst many Canadians, finding expression in newspapers of this country, is that the British press carries very little Canadian news. This seems to be a general impression amongst Canadians who have spent some time overseas. The press service of Britain devotes little space to anything but extraordinary occurrences, for example the Dionne. It has been pointed out that Canadian papers are relatively much more generous in the space given to British news.

There are, of course many English people in Canada to whom news of their home country is of primary importance, whereas the number of Canadians in Britain is comparatively very few. Again, Canada has a voiceless though very vital concern in any international developments arrived at by Britain. Another reason for following as closely as is possible, British relations with other countries.

But it seems obvious that there is no great demand in Britain to record any but extraordinary or bizarre happenings in Canada.

This country is, of course, one part of a very large Empire. Moreover, it seems to hold the place of an inoffensive dependable child who does not need watching, rarely causes anxiety, and for that reason begins to feel ignored. It is common experience in any family that the child receiving most thought and attention is either the one who is most expensive and troublesome, or one that is the biggest asset materially. Canada is neither one nor the other. We are singularly undramatic from an Empire standpoint. Regiments do not have to be rushed to us to quell disorders. Our border line is not in constant danger. No native Princes are likely to create trouble. No valuable source of revenue is threatened. We seem to offer little strategic drama in the world of affairs. Therefore we are not news. It is perhaps a good way to be.

It seems unreasonable to expect that the sentiment binding Canadians to the mother country should be reciprocated to the same degree in Britain. We are merely a far-off part of a far-flung Empire, a very vague colonial possession to the majority of British people whom the

FROM OTHER PAPERS

A Prosperous Land

(From Wolfville Record, N.S.)

When we consider that by far the greatest proportion of these fine appearing equipages represent an expenditure that brings back no profit and only expense to the investor one cannot fail to realize what a grand old province is ours. Primarily an agricultural land we fail to produce from the fertile and extensive farms enough to provide for our own needs, and yet apparently have plenty of money to pay for imported automobiles and gasoline to gratify a love for speed locomotion. Surely if we can continue to do as we are now doing ours must be indeed a goodly heritage.

Red Ryan

(Collingwood Enterprise)
Norman "Red" Ryan is dead from

an officer's bullet while attempting a hold-up in which he used his gun regardless of the loss of life that might follow. Ten months ago he was released from the "pen," where he was serving a life sentence. This came about largely through the efforts of interested public men and women, amongst others former Prime Minister R. B. Bennett, Senator H. A. Mullins and Miss Agnes McPhail, M.P. They all had faith in the young man. The penitentiary officials had faith, others had faith and the public were satisfied, indeed pleased, when "Red" was released and set on his way, as he declared to "go straight." For Ryan, it is doubtful if a word of good can possibly be said. He was a deceiver, not of the gay variety, but of a low down miserable type, of which—let us be thankful—there can be but few. With all that however, do not penal-

ize, through poor management, the hundreds of others, who, through their own misdeeds have made them wards of the Dominion. All are not Ryans.

The Council Goes to Church

(From Comox (B.C.) Press)
Sunday next Courtney city council will officially go to church. With them will attend the school board and other civic departments and officials. Church and state—and the council is nonetheless a tiny fragment of state—run parallel courses. Both have the care and welfare of the people in their charge, the one spiritual and the other temporal. And though it is a good thing to separate these obligations for general functioning, it is equally good that each take cognizance of the other, and join at least once a year on common ground in the realization of their respective duties and service.

newspapers serve. If we should cause apprehension to such investors in Canada, or if a war should be declared we can count on making the headlines.

ONTARIO GETTING OUT OF RED

There is a large measure of gratification noticeable in treasury circles since the provincial treasurer announced that for the first seven weeks of the present fiscal year there has been an improvement of seven million dollars as compared with the same period last year. The funded debt is also several millions lower than last year. Much of the increase in revenue is due to succession duties yielding larger returns. Last year the revenues from this source were the highest in the history of the province, totalling over \$12,000,000. Another source from which substantial returns are expected is the recently imposed provincial income tax which it is expected will to a large extent take care of the relief problem which has been reaching alarming proportions. People cry out against taxes and notwithstanding this the doors of departmental offices are darkened with deputations like swarms of locusts who make insistent demands to dip deep into the provincial coffers, in many cases for grants and appropriations to carry out projects that are not needful in the public interest. Democracy is after all, perhaps, as great a tyrant as bureaucracy. The late Alexander MacKenzie, second premier of Canada, once said that one of the prime necessities of a government was to keep the strong box from being raided by ruthless grabbers who themselves expected to profit by every grant made.—Milverton Sun.

CANADA

The National Geographic of June issue, has published with the magazine a most complete and up-to-date map of Canada. The more remote sections of Canada are mapped with a detail made possible only through aerial survey. The map is on a fine scale and of an accuracy that makes it very valuable and interesting.

Many pages of written matter and illustrations are devoted to Canada's "Awakening North." The article by Lawrence Burpee, describes a recent trip north from Edmonton, through the Great Bear Lake region, dwelling on the almost untouched mineral possibilities of that land.

Another article tells the million Geographic subscribers and others, of Canada as a vacation land. It tells of the army of motorists from United States, travelling in 3,000,000 automobiles and otherwise who stream across the unfortified boundary "into friendly Canada," on yearly vacation.

The story recalls Voltaire's description of Canada, two centuries ago, as "A patch of snow inhabited by barbarians, bears and beavers." "He should now spend a day dodging the teeming traffic of Toronto" is the comment, "or watch the enormous grain elevators at Vancouver or Montreal pouring millions of bushels of wheat from western prairies into the holds of ocean steamers for shipment to the hungry harbors of the world."

Interesting facts as to mineral resources, pulp factories and other industries, distribution of population, area and so on are given, as well as a detailed description of the Canadian shield, "stretching from Labrador across the Dominion, the breast bone of the continent."

"What a contrast between Southern Canada sown with cities, netted with roads and railways and the immense open spaces of the north. The pulse of man's power over nature beats but feebly in this northern land, blue-veined with countless rivers and lakes."

The June issue of the Geographic and the well marked map make fine publicity for Canada, and it is rather thrilling to think of the subscribers all over the world who are poring over this picture of the Dominion.

CARDSTON EXPERIMENTAL UNIT

Cardston has earned an enviable reputation for its progressive outlook in the matter of social services. It was the first town in the province to institute a medical and dental contract, and is widely known for the provision which it makes for school facilities, and all enterprises connected with youth.

It is not surprising that it should be selected as the area for trying out the larger school unit. The large unit, though not popularly approved, appears to be a feature of the future educational administration, provided it is proved successful in the experimental stage.

The unit embraces five subdivisions of about fifty-three schools, though as yet this is not arbitrary. The subdivisions have been planned with regard to population and school districts. Meetings will be held at central points, in the current month, with every elector invited to attend and take part in discussions, and the outcome will be attended with interest by the province generally. Hon. N. E. Tanner, M.L.A., and Inspector Gibson, have been developing details of the plan, and are quoted as finding the ratepayers favorable to the scheme.

It has been obvious that many trustees in the province are not favorable, contending that costs will be increased and local authority displaced by centralized authority.

The matter of costs is a disputed point, and educational leaders see many advantages in a removal of some of the handicaps under which rural children have labored. Those who should be most thoroughly informed on education from the standpoint of efficiency and equalization of opportunity are strongly in favor of the larger unit principle. Because its merits are so vigorously debated and because taxpayers generally, wish rural children to have the best service obtainable, it is hoped that the experiment in the Cardston area has a fair trial. No great harm can be done, and the result should bring definite proof one way or the other.

Reviving Pastures Suitable Grasses

In the old days of unlimited range there was an abundance of feed seen everywhere. Cattle and horses picked their living and grew accordingly. Nowadays many of the ranges are fenced and often overgrazed. Pastures can frequently be seen so short that one wonders how the animals can keep alive.

Live stock of size and quality cannot be produced unless an abundance of a properly balanced ration is available throughout the entire period of development of the animal. A shortage of good pastures and lack of nutritious winter feed is reflected in hundreds of animals of inferior quality shipped to market every year.

Crested wheat grass, is very suitable for pasture in the dry sections of the West. Best results were obtained from a field that was seeded the last week in June. There was a strong stand that covered every inch of the ground. Where seeded earlier a good deal of worm damage was noted, which resulted in a thinner stand. It is extremely drought-resisting and winter-hardy and did not show damage from close grazing and severe tramping on account of its enormous root system.

A successful pasture field was obtained by seeding alfalfa and brome grass together. This mixture has the advantage over pure brome in that the alfalfa tends to improve the fertility and tilth of the soil, increases the yield and retards the sod bound effect, which develops in the brome sod. Mixing the seeds well together and sowing at the rate of 16 to 20 pounds per acre, they will run well from the grain drill as the alfalfa seed has the weight and the brome has the bulk to make a good combination.

Brome grass alone is quite dependable for pasture purpose too, and better than for hay, because it develops a thick, matted growth of leaves near the ground. In time the sod becomes dense or "sod bound."

Seeding the brome with a nurse-crop of one-bushel oats, which was later cut for greenfeed has resulted in quite satisfactory stands the following year.

Western rye is quite dependable and satisfactory for hay. It yields well but produces a dry, wiry hay that is not relished by stock when grown alone.

Western rye grass-sod does not have the same tendency to become sod bound that brome has and is easily eradicated. The land works down almost as well as stubble. A great deal of root fibre appears to be left in the soil however, and for these reasons a mixture of rye grass six lbs. and sweet clover twelve lbs. is an excellent combination to use where a forage crop is included in a system of crop rotation suitable for mixed farming districts.

Experiments with timothy, red clover, alsike and red top have shown that there is usually insufficient moisture in the district for the proper development of such crops. These are all moisture-loving plants, and in dry season the clovers winter-kill, while the yields of the grasses are very light.—Family Herald.

Pay As You Park

City Money Maker

Those five cent curb-parking meters are an increasing success. Already there are 1000 in Dallas, 500 in El Paso, 500 in Oklahoma City and 150 in St. Petersburg, Florida. In Dallas the take of the machines during the first 15 days was \$10,012, and its estimated that they will pay for themselves in less than four months. The idea started in Oklahoma City two years ago when the Chamber of Commerce appointed local editor Carl Magee to investigate the traffic jams in the front of downtown stores. Magee found that 80 per cent. of the valuable parking space was being used, not by customers, but by people who parked all day. He hired engineers and devised the Park-o-Meters which are set at 20-foot intervals along the curb. When a motorist drops a nickel in the slot, a great signal is raised. After an hour the signal falls and any passing cop can tell at a glance that the car is overparked. You can buy a Park-o-Meter for \$58 installed, with the company agreeing to accept the actual take of the machine until it pays for itself. Slug-passers are discouraged because the last nickel deposited remain in full view through a glass window. Dallas expects to finance a \$100,000 safety drive this year with the receipts from its Park-o-Meters.

Alberta Duncan, son of E. S. Duncan of the Banff weekly, has won an M.A. degree in Economics from University of Alberta, and a research scholarship from McGill for his treatise on unemployment.

Our Weekly Letter In Correct English

By W. L. Gordon

Words Often Misused

Do not say, "The program was broadcasted from Buffalo," Say, "The program was broadcast from Buffalo."

Do not say, "My brother is a tall or taller than me." Say, "My brother is as tall as I, or taller."

Do not say, "Charles and I were the first of all to leave." Omit "of all."

Do not say, "What kind of a plan did he suggest?" Omit a.

Do not say, "We often play cards evenings." Say, "We often play cards in the evenings."

Do not say, "Such action is nothing else but folly." Say, "Such action is nothing else than folly."

Words Often Mispronounced

Laundered. Pronounce law-n-derr, not lawn-drid.

Tuesday. Pronounce tuz-day, u as in unit, not tooz-day.

Digit. Pronounce dij-it, not dig-it.

Nausea. Pronounce no-she-a, o as in soft, e as in she, a as in ask, unstressed, accent first syllable.

Malleable. Pronounce mal-e-a-b'l, first a as in at, and four syllables, not mal-a-b'l. Accent first syllable.

Boundary. Pronounce boun-da-ri, three syllables, not bound-ri.

Words Often Misspelled

Counterfeit. Observe the feit, pronounced "fit." Consomme. Observe the "mme." Dying (becoming dead). Dyeing (imparting color). Divisible; three "i's." Condemn. Observe the "mn."

Current (now passing, as time). Currant (a berry).

Word Study

"Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day.

Words for this lesson:

REVERE, to regard with respect and esteem. "We revere these men of genius."

RECURRENT! returning repeatedly. "Recurrent waves of sympathy influenced the people."

ANTECEDENTS; the earlier events of one's life. "No one knew his antecedents."

COINCIDE; to correspond exactly. "My opinion coincides with yours."

APTITUDE; natural or acquired capacity for a particular purpose. "He has an unusual aptitude for the work."

School Changes

Now Outlined

Changes in the Alberta curriculum to provide for the new educational policy, have been outlined in a memorandum to be issued to all school boards in the province by G. Fred McNally, Deputy Minister of Education.

Revision of the grouping of subjects, and a reclassification of school grades are the main points in the new set-up.

Rural Provisions

Grades will now be grouped in three school divisions—the elementary school for Grades I to VI, the intermediate school for Grades VII to IX, and the high school for Grades X to XII.

In rural schools elementary school grades will no longer serve as a basis of promotion, but merely as levels of attainment. A pupil's grade status may differ for different subjects.

The complete new program for the intermediate schools and high schools will not be introduced until September, 1937. It is planned to introduce the intermediate schools gradually into the province.

To Cut Exams

When the revision of the high school program is complete, the number of departmental examinations will be greatly reduced. It is planned to replace all present examinations in Grades X and XII by a departmental examination for all students who have completed their high school program, at the end of Grade XII. A similar intermediate school examination will be given at the end of Grade IX.

Premier Aberhart stated in Edmonton, Thursday, that refunding operations had no bearing on mortgage investments. The refunding plan refers only to provincial indebtedness, and possibly municipal bodies. The rate of interest is a federal matter, and sound investment in the province need have no apprehension.—Albertan.

Some Always Old Some Ever Young

Some men are old at forty. Some are young intellectually at eighty. William Pitt was the prime minister of England at 24. Gladstone held the same office at 84, and with powerful success. Byron died when he was 36. At 84 Voltaire was the leading figure among French men of letters. Napoleon was at his best before he reached the age of 35. Frederick the Great was 60 when he made Prussia one of the powerful states of Europe, and it was at the age of 56 that Bismarck founded the German Empire. Washington was 56 when he began his term of eight years as president of the United States. Raphael died at the age of 37. Leonardo da Vinci was past 50 when he planned the Mona Lisa. If compulsory retirement at 50 had been established in the past the world would never have heard of Lincoln, Lee or Darwin.

Housewives

► Don't cook meals on Sundays during the hot weather. ► Eat at the Imperial Hotel. ► Full course dinner served from 6 to 7:30 p. m. for 50c.

WAKE UP YOUR LIVER-BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go
The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harsh stools go into the body, and you feel sour, sick and the world looks pink.
A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of a colon but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. See.

ITEMS OF INTEREST

H. Morgan, Didsbury, was re-elected president of the Alta. Branch of Canadian postmasters.

Repairs on the Edmonton-Wetaskiwin section of the highway were begun on Friday.

Teachers of Red Deer public schools will be given a salary increase of \$50 a year to \$100 a year, starting Sept. 1

The government vendor at St. Paul Alberta, for the past twelve years, is being replaced by the president of the Industrial Social Credit group.—Calgary Herald.

Hon. Chas. Cockcroft has promised an adjustment of grazing lease rentals. Three surveys have been promised, for more equitable rental; for forest land and tenure; for arrears of rentals.

Howard McLean, barrister of Calgary, who was associated with the A. A. Ballachey firm in the early days, died at Toronto on June 5. He was visiting his brother J. S. McLean, president of Canadian Packers.

Mrs. A. H. Rogers, Fort Saskatchewan, Alberta, Hon. President of Women's Institutes, was named assistant international secretary for the third triennial of Associated Country Women of the World, held at Washington J. W. Beaudry, M.L.A. stated at St. Paul that the certificate plan of payment would put 40,000 men to work on roads. If it were not put into operation the government would not be able to do much work because it had not much money.—Albertan.

Premier Aberhart commenting on the resolutions of the United church regarding sales tax and political Sunday sermons is quoted: "Until the Alberta conference is able to control its own members it is not wise to step into the realm of any other church and tell it what to do on Sunday. I wonder if the United church conference would like to have the statements from their pulpits discussed publicly by those of another denomination. It is my opinion that mud-slinging gets the churches nowhere," said the premier.—Calgary Herald.

SERVICES VULCAN CHURCHES

Church of England

On Sunday, June 14th, services will be held in St. Aldhelm's church at 11 a.m. with thoughts on the Holy Table and at 7.30 p.m., when the life of Saint Basil, the lawyer, will receive consideration. Afternoon services will be held at Lomond at 3 o'clock with "Religion in Relation to Education" as the subject of address.

Church of Christ

Next Sunday, during the morning hour at the Church of Christ, the children's day program will be given with a short appropriate sermon. The offering will be a Missionary offering. Sunday evening sermon "Ye Serve the Lord Jesus Christ." Christian Endeavor will follow the evening service with Asel Bogue as leader. At mid-week service next week the minister, Jasper Bogue, will speak on "What We Stand For." All are invited to attend.

Keep in mind the regular services of the Church of Christ and its departments.

United Church

Next Sunday, June 14th, is anniversary Sunday at the Vulcan United church. Rev. Dr. Powell of Calgary will be the guest preacher for the day. He will preach at both morning and evening services. The junior choir will render suitable selections for the occasion in the morning. At the evening service, the senior choir will present, among other numbers, the well known anthems "The Gloria" and "Jubilate Deo." Make this anniversary one of those occasions on which you will go to church.

ITEMS OF INTEREST

Proficiency exams for mechanics are effective July 1, with due notification of time and place of examination.

John Blackmore, M.P., deplored the one cent sugar tax as a great handicap on beet growers.

Hon. W. Chant says the government will make no advances this year to farmers for fuel oil to be used in summerfallowing.—Calgary Herald.

Sir Samuel Hoare returned to the British Cabinet, six months after his resignation. He is First Lord of the Admiralty, succeeding Viscount Mollath.

Hon. J. W. Huggill and R. J. Dinning visited Drumheller inquiry into the advisability of enlarging the vendor store, owing to the government having taken over the sale of beer.

Certificates of proficiency will now be required of mechanics in automobile, steam engines, radios, plumbing electricians, barbers, etc., according to the Alberta Gazette.

At the annual meeting of the I.O.D.E. in Winnipeg, a resolution was passed reaffirming loyalty to the Empire, pledging support, accepting all responsibility of Empire ties, and deploring propaganda for the avoidance of war at any cost.

Unless Canada takes immediate action to organize her air routes, they will be monopolized by British and foreign interests, was the opinion of Air Commodore H. Hollick-Kenyon, speaking before a large meeting of the Lethbridge Gyro Club on Friday.

"IT'S IN THE AIR"

Selected Short Subjects

THE GREAT ROBBER

Weeds are the great robbers of the farmer's income. Careful experiments made by Government Experimental Farms and Universities reveal that on our Western Prairies weeds take a greater toll than drought, rust, insects and plant diseases all put together.

Early June summerfallowing and clean cultivation destroy weeds, preserve precious moisture, so help to increase farmers' incomes and profits.
